The New Biopsychosocial Model of Disease and Suffering

Presented by Dr Paul Canali

You are invited to attend this exciting new Level 1 Healing Retreat!

Saturday, October 14, 2017

Finally, the healing retreat & workshop we have been waiting for! It's not only for health practitioners, but healers, trainers and instructors from all disciplines. This day-long event involves lecture, discussion, demonstrations and hands-on instruction.

The secret of health and happiness has always been within.

Join us as we look within and explore self healing and support and nurture our own wounded healer – how to work with pain and difficult emotions that may lead us to our own true self.

It is not only important for ourselves and our healing journey as healthcare practitioners, healers and seekers, it is essential for working with deeper wounds, life traumas and issues that may be at the core of dis-ease asking to be addressed and integrated in a natural, self-healing, whole person, relationship-centered care.

~ Heal Yourself – Help Heal Others ~

The Unified Theory of Everything Human is a comprehensive model of human evolution and development. It is becoming alarmingly clear that both physiological and psychological health and disease, whether we thrive or remain stuck in life and even our search for purpose, meaning and spiritual quests, has more to do with our early childhood environment than anyone could imagine.

In this healing retreat, you will learn:

- The secrets to whole body & brain healing and the new model for ending pain, PTSD, anxiety and depression.
- New breakthrough tools to boost your effectiveness and results in your practice.
- How to incorporate these principles with your friends, family, group settings and in your own life.
- How to read the signs of ANS dysregulation and activate the Homeostatic Balancing Reflexes™.
- About the body~brain and the Autonomic Nervous System (ANS) and how it relates to growth and healing.
- Avoid Burn Out Syndrome and Compassion Fatigue.
- Help heal yourself to have more happiness and health in your own life.
